SUMMARY

Full-stack developer specialising in React and TypeScript frontends, with a strong track record of shipping production web applications. Experienced with modern tooling including Vite, Tailwind CSS, Redux Toolkit, shadcn-ui, and Supabase. Solid foundation in system architecture, clean code principles, and Agile workflows, with hands-on experience leading development teams.

PROJECTS

Sortak — *React · TypeScript · Tailwind CSS · shadcn-ui · Supabase · Vite* sortak.net

- Passport and ID photo converter app — processes user photos to meet official government document specifications.
- Built with React, TypeScript, and Vite; styled using Tailwind CSS and shadcn-ui component library for a polished, accessible UI.
- Integrated Supabase for backend storage and data management; deployed live with automated CI/CD via Render.

BodyLevel — *React · TypeScript · Redux Toolkit · Framer Motion · Material-UI · Vite* body-level.vercel.app

- Progressive calisthenics skill tree app — lets users track bodyweight exercise progressions and unlock harder movements as they advance.
- Built interactive skill tree UI with category filtering (Push / Pull / Legs / Core), XP system, and achievement unlocks.
- Manages complex UI state with Redux Toolkit; uses Framer Motion for smooth transitions and Material-UI for component design.

StudyWise — *Flask · Firebase · NLP · Python · REST APIs*

- Led a 4-person team to build an AI-powered learning platform that personalises student study materials using NLP.
- Designed and integrated RESTful API layer connecting the Flask backend to the Firebase database and frontend clients.

EXPERIENCE

IT Technician | Simex Group · *Nov 2024 – Sep 2025 · Doha, Qatar*

- Supported 100+ users across hardware, software, and network issues, maintaining high system uptime.
- Provisioned and deployed 30+ workstations; maintained structured asset database for lifecycle tracking.
- Troubleshoot and maintained IoT devices using advanced diagnostic tooling and systematic root-cause analysis.

EDUCATION

BSc, Computer Science – Software Engineering | *Misr International University · 2020 – 2024*

SKILLS

Frontend: React, Next.js, Angular, TypeScript, JavaScript, Tailwind CSS, shadcn-ui, Material-UI, Framer Motion, Redux Toolkit, HTML/CSS

Backend: Node.js, Django, Flask, RESTful APIs, Microservices

Database / Cloud: Supabase, Firebase, MySQL, Oracle, AWS, Docker

Languages: Python, Java, C++, Flutter

Practices: OOP, SOLID, Clean Architecture, MVC/MVVM, Agile/Scrum, CI/CD, Git, System Design
